

Innovative Brand Marketer

Golden Phoenix, Mity Fresh, Early Dawn, Garden Maid, and Del Campo are our diverse world-class brands. These brands cover chicken, pork, French fries, vegetables, and seafood, which we market in more than 100 countries.

Multi-country sourcing allows AJC to maintain a consistent supply with substitutable products. Our strategic marketing plans and promotional support are tailored for local markets by our Marketing Managers.

Our Food Safety & Quality Assurance team conducts more than 100 plant inspections yearly to ensure that our exacting product specifications are met. All local and global health requirements are strictly adhered to, delivering significant value for our brands.

SERVICE

Global Food Marketer

AJC is a global food and logistics services provider. We are a leading refrigerated exporter with a seamless international network. As a performance-driven strategic partner, our primary goal is ensuring your success.

The quality and scope of our customer and supplier relationships, combined with our product and market knowledge, define our success. An efficient supply chain system for our proprietary food products and services builds value for all our partners. Our in-house marketing team is an innovative brand marketer who creates customized programs.

POULTRY

AJC is the leading global marketer of poultry products. With offices spanning the globe, we source product from over 25 countries ensuring that we have complete price visibility.

PORK

We export pork products from more than 20 countries, allowing AJC to deliver the best product at the right price. Our decades of experience help our customers make the best decisions related to quality, cuts, and specifications.

MEAT

Our international meat experts have the knowledge of each producing country, grading standards, feeding programs and livestock selection. AJC is also a leading supplier of lamb, mutton and game meats.

VEGETABLES AND FRUIT

All sectors of the food industry benefit from our wide variety of frozen vegetables, fruit, and potato products. Our customers can leverage our extensive branded portfolio, or create a custom program tailored to meet particular requirements.

SEAFOOD

AJC seafood experts and quality control programs assure the flavor, color, and size specifications for our farm-raised and wild-caught seafood programs from around the world.

Farmed, Wild Caught, and Canned

Logistics Services Expert

Leveraging our 50+ years in business, AJC has become one of the world's largest perishable food handlers. Our combined organizations handle more than 1.9 million metric tons of cargo per year.

AJC has expertise in food-centric warehousing and consolidation, trucks, drayage, LTL, rail, and intermodal transport.

Because of our significant refrigerated and dry ocean volume, we also provide dedicated inventory and supply chain management programs.

We have more than 1,000 origin-to-destination port pairs supporting 51.8K full container loads that we ship every year, leveraging relationships with all major ocean carriers.
